### About This Game

Alien Bubble Destroyer is an indie game perfect to have a good time of fun in a relaxed way and facing a moderate challenge.

Alien Bubble Destroyer you will face several levels that you will have to complete if you want to completely pass the game.

The mechanics are simple, you have to explode all the bubbles that appear with your shot, when you do the level will be completed.

It might seem simple but it is not. The bubbles that you explode with your shots will be divided into smaller bubbles, and so it will be in a sequence that will be repeated several times.

This will fill the map with small bubbles and will add difficulty to the game, you will have to dodge everything and at the same time shoot the bubbles.

Apart from that, you can have in certain levels special shots with different characteristics and appearance, such as shooting knives instead of standard laser shots.
